TC3 Speakon Module (phoenix on rear)

TC3 SPEAKON EU SAP: 3446579 US SAP: 12980829

vav.link/tc3_speakon

Phoenix connector at rear
Occupies 2 module spaces

This module is part of Vision's Techconnect connectivity faceplate family.
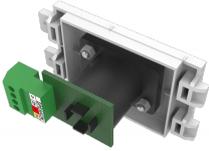

Versatile Audio Connector
Also known as NL-4, this is a versatile professional audio connector exclusively used for speaker cable.

Fixes to Surround
Techconnect modules fix into a surround, which in turn fixes to a backbox, mudring (for hollow walls), or a table faceplate.

Future-proof
If you break a module or need to change it in the future, just replace that part - not the entire faceplate.

Flexible
Get to site and the client changes what they want on their AV faceplate? No problem.

Strong
Techconnect parts are robust for the rigours of every day use. They include strengthening ribs and reinforcing where required.

Proven
For over 15 years Techconnect has improved and developed into one of the most popular AV faceplates in the world.
