Female 15-pin D-sub connector for PC output  
Female D-Sub (VGA connector) on rear instead of phoenix connector  
Occupies 1 module space

This module is part of Vision's Techconnect connectivity faceplate family.

### Fixes to Surround

Techconnect modules fix into a surround, which in turn fixes to a backbox, mudring (for hollow walls), or a table faceplate.

### Future-proof

If you break a module or need to change it in the future, just replace that part - not the entire faceplate.

### Flexible

Get to site and the client changes what they want on their AV faceplate? No problem.
