

# Monitor Desk Stand 100×100 Dual

VFM-DSDB EU SAP: 4740212 US SAP: 13445542

[vav.link/vfm-dsdb](http://vav.link/vfm-dsdb)

Freestanding desk stand for two displays up to 32"

Black (only)

Full adjustment: height, rotation, swivel

Optional Laptop Shelf

Quick release VESA plate

Thumbscrews for fast assembly

Fine independent height adjustment

The VFM-DSD (Vision Flat-panel Mount – Desk Stand Dual) takes the popular desk post mount and replaces the clamp with an attractive flat base. It fits any two monitors which have 75 x 75 mm or 100 x 100 mm rear mounting holes. Vision have obsessed over the detail to make it as quick and easy to setup.

## Thumbscrews

Vision include more screws than other manufacturers to ensure you can successfully install your display with the screws included, and the screws are thumbscrews so you can be done faster, without a tool.

## Quick Release

The VESA plates are quick-release to assist with fast assembly.

## Optional Shelf

The shelf fixes to the mount's VESA plate and supports laptops or tablets from 240-420 mm (9.5-16.5") wide. Adjustable clamps help secure the device in place.

## SWL 8 kg

The VFM-DSD can support two monitors up to 8 kg (17.6 lbs) each.

## Display Size 13-32"

If a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

## Double-Pivot

Two articulated points in each horizontal arms allow a huge range of positioning. The arm reach is up to 399 mm (15.7").

## Cable Management

Clips on the arm secure cables which can be routed along the mount.

## Variable Height

Slide the arm up and down the post, then lock off at required height. The post is 452 mm (17.8") tall.

## Swivel and Tilt

The ultra-flexible design gives -45°~45° of tilt adjustment, and -90°~90° of swivel range.

## Rotate

Easily move the monitor from landscape to portrait style.

## Scratch-Resistant

The powder-coated surface is thicker and more scratch resistant than paint.

## Independent Height Adjustment

Fine height adjustment of each monitor allows the installer to get perfect height alignment.
