vav.link/vfm-dsdbpluss

Desk stand with laptop tray and monitor arm
One arm supports a display up to 27",
One arm has a laptop tray
Shelf has adjustable clamps to secure laptop
For laptops from 240-420 mm (9.4-16.5") wide
Shelf size: 300 mm (12") wide x 280 mm (11") deep
Post Height: 443 mm (17.4") tall

Correct ergonomics are essential to avoid injury and maximise productivity. People who use a laptop (or tablet) with a second computer monitor should have their laptop screen at the same height as the monitor and have a separate keyboard on the desk. This mount combines Vision's dual-desk post with a laptop shelf (which comes in separate carton).

Vision have obsessed over the detail to make it as quick and easy to setup.

VESA

The arms offer a massive range of movement, and the VESA mount fits any monitors which have 75 x 75 mm or 100 x 100 mm rear mounting holes.

Thumbscrews

Includes thumbscrews so you can be done faster, with fewer tools.

Quick Release

The laptop tray fixes to the desk post's VESA plate – where the display would normally fix – which is quick-release.

SWL 4.5 kg

This mount can support a laptop up to 4.5 kg (9.9lbs), and a display up to 8.0 kg (17.6 lbs).

Display Size 13-27"

The recommended maximum size is 27", but if a larger display has the correct mounting points and weighs less than the SWL this mount can support it safely.

Vents

Slots in the shelf keep the device cool, maximising airflow.

Foam Dots

High-density foam dots help to isolate vibration and keep the device in place. They also hold tablets off the tray to help airflow.

Double-Pivot

Two articulated points in the horizontal arm allow a wide range of positioning. The arm reach is up to 460 mm (18").

Cable Management

Clips on the arm secure cables which can be routed along the mount.

Variable Height

Slide the arm up and down the post, then lock off at required height. The post is 443 mm (17.3") tall.

Swivel and Tilt

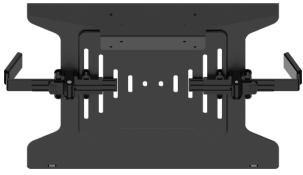

The ultra-flexible design allows -45-45° of tilt adjustment, and -90-90° of swivel range.

Rotate

Easily move the shelf from landscape to portrait style.

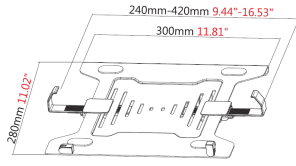

VISION

Scratch-Resistant

The powder-coated surface is thicker and more scratch resistant than paint.
