

# Wall Mount Video Conference Shelf

VFM-WVC EU SAP: 5048878 US SAP: 13557673

[vav.link/vfm-wvc](http://vav.link/vfm-wvc)

Works with Vision's professional wall mounts and floorstands

Highly adjustable

Can fix directly to wall

Platform 216 x 120 mm (8.5"x 4.4")

Use to hide Clickshare behind display

VESA100 holes for fixing media players behind display

**This video conference camera shelf fits to Vision's professional flat-panel wall mounts. It fixes to the horizontal part of Vision's wall mounts to provide a shelf for video conference cameras and other devices above or below the display.**

## Adjustable Depth

The shelf can be fixed at different depths, or left off if not required.

## Compatibility

Works with these Vision mounts: VFM-W4X4 VFM-W4X4T VFM-W4X6 VFM-W6X4 VFM-W6X4T VFM-W8X6 VFM-W8X6T VFM-W10X6 VFM-F10 VFM-F30 (all variations) VFM-F40 (all variations)

## Alternative Fixing

The shelf can be fixed directly to the wall if that suits the job better.

## Height Adjustable

The vertical part fixes to the wall mount at various heights.

## Above or Below

Mount the shelf above or below the display as required.

## iPad Enclosure

VESA 100x100 mounting points on the column allow an iPad enclosure like Heckler's Zoom Room iPad enclosure to be fixed below the display.

## Screen Size 50"+

The vertical column is 1003 mm (39.5") tall, so this is not appropriate for screens smaller than 50".

## Logitech Rally or Meetup

The shelf accommodates Logitech's Rally Camera. It has a fixing hole so the camera can be fixed to the shelf. Or the wall bracket that comes with Logitech's Meetup can fix to the vertical column.

## Hide Clickshare Behind Display

Designed to accommodate Barco's Clickshare CSE-100, CSE-200, CSE-200+, and CX-50 base stations. These items can sit on shelf visible to users, or a crossbar (*shipping from August 2020*) is included to mount these receivers behind the display out of sight.

## Yamaha YVC-1000 Shelf

The shelf has fixing holes for the YVC-1000 audio conference base unit.

## Universal Shelf

Any video conference camera can sit on this shelf.

## VESA100 mounting holes on column

An array of holes in the column allow media players to be fixed behind the display, out of sight.
